Network

ILEIN

---

## **GOAL**

---

To enhance and foster the sharing of intelligence information among the law enforcement community within the State of Illinois.

---

## **OBJECTIVES**

---

- Gather, record and exchange confidential information not available through regular police channels.
- Establish a central clearinghouse for information and provide for dissemination to the membership on a need to know or right to know basis.
- Receive, analyze and disseminate information and intelligence provided by law enforcement member agencies.
- Maintain an effective means of interface with federal, state and local organizations across jurisdictional, state and national boundaries.

---

## **NETWORK ORGANIZATION**

---

In the fall of 1985, the development of a Statewide Intelligence Network was proposed. This Network was brought into existence on October 30 and 31, 1986, when fifty Illinois law enforcement agencies met and ratified the Constitution and Bylaws for the Illinois Law Enforcement Intelligence Network, ILEIN.

For reporting and organizational purposes, ILEIN is geographically divided into four areas. Each area has an Area Board composed of four elected members from participating agencies, one of whom serves as the Senior Board member and chairs the board. Also serving on the board is a designee of the Central Coordinating Agency (CAA) Supervisor. Area V Board meetings are held on a quarterly basis.

The Network is managed by an Executive Board composed of the Senior Board members of each area, a Chairman and the Central Coordinating Agency Supervisor. The Executive Board meets twice per year.

---

## **ANNUAL MEETING/TRAINING**

---

ILEIN conducts a two and one half day annual meeting which includes Area and Executive Board meetings and provides training blocks for its membership on topical issues of statewide interest.

---

## **INFORMATION CRITERIA AND REPOSITORY**

---

Criminal history and intelligence information on individuals and organizations submitted to ILEIN shall conform to one or more than one of the following targeted criminal activity categories:

- traveling criminals
- organized crime
- narcotics/dangerous drugs
- suspected criminal associates
- informants

The central repository and the coordinating agency for all information that is shared through this intelligence Network is the Illinois State Police, Intelligence Bureau of the Division of Operations.

The criminal intelligence file will be located in a secured area with file access restricted to authorized personnel.

---

## **MEMBERSHIP**

---

Application for membership to ILEIN is open to all federal, state and local government law

enforcement agencies, organizations and sub-organizations within the State of Illinois. Applications for ILEIN membership are initiated through the respective area board and then forwarded to the Executive Board for final approval and acceptance.

---

## **INTERPOL LIAISON NETWORK**

---

An agreement has been reached with the U.S. National Central Bureau of INTERPOL whereby ILEIN will serve as a point of contact for the State of Illinois in all law enforcement matters which prove to be international in scope. This agreement will provide ILEIN with the opportunity to broaden its investigative resources to encompass the international law enforcement community.

Requests from ILEIN members may be directed through the ILEIN/INTERPOL coordinator or communicated directly to the USNCB office at the discretion of the requesting agency.

---

## **INFORMATION SUBMISSIONS/INQUIRIES**

---

Intelligence information may be submitted or inquiries made into the Network by telephone at 217/785-2331 or in writing to:

Illinois State Police  
ILEIN  
Division of Operations  
500 Iles Park Place, Suite 400  
Springfield, Illinois 62718

In addition to record checks of ILEIN files, special services are also available through ILEIN upon request. These requests may be for information regarding individuals, groups, organizations, businesses, types of crimes or criminal activity. Requests will be evaluated and processed on an individual basis.
